

Ethnic & Creatif Gifts crafted Creatively

Batik Handicrafts made in Indonesia 

What we offer

Our products are made of fine wood quality.

Products can be used as homeware, gifts, souvenirs, or interior home accessories.

Our base colours are: Green, Blue, Red and Brown.

Easy to maintain & food grade products.

How We Began

Passion for Arts & Crafts to Small Business

Seni Home was established by Simran in 2011 based on her passion for Indonesia, interior design and arts and crafts. As a local, she admires culture, heritage and mainly the artisans' creativity in being able to create ethnic products. Having always loved Batik she decided to start this small business and promote local products.

The name Seni Home simply means "Home of Arts and Crafts". Through Seni Home we hope to continue to grow steadily and spread the rich culture of Batik Indonesia.

Our Products

We have Batik on Wood and Batik Cloths (Tulis and Cap) but our current main focus is Batik on Wood.

Depending on each product, we use various types of wood like Gamelina, Astonia, Sonokeling, Wadang, and Sengon.

All our homeware products are foodgrade and easy to maintain.
